

Tours

From the historic World War II Military Museum to a working fish hatchery, Kodiak has many interesting and educational places to visit, including the country's largest Coast Guard station.

MemoryMakers can take you to and walk you through the Alutiiq Museum - dedicated to preserving and sharing the native heritage or the Baranov Museum - the oldest remaining Russian structure in Alaska.

We can walk the docks at St. Paul Harbor - shared by Stellar Sea Lions and commercial fishing boats or comb the beaches that surround the city.

For a more hands on approach we can try tide-pooling or visit the touch tank at the Kodiak Fisheries Research Center.

MemoryMakers *Tour & Guide Service*

Dake Schmidt, owner and operator of MemoryMakers Tour & Guide Service, has over thirty years of fishing experience and a true passion for the outdoors. It is his privilege and pleasure to share with you the uniqueness that is Kodiak Island and all it has to offer.

Dake and his cat Zonkers are year-round residents of Kodiak Island.

and let the memories begin!

Fishing

With over fifteen road accessible rivers, Memory Makers can put you on a fish of a lifetime. Reds, Pinks, Silvers, Chum, Rainbows, Steelhead and uncountable numbers of Dolly Varden can be pursued and lured into a strike.

Lunch and all fishing tackle (fly/spin) and gear are provided, the only thing missing is you. This is a wonderful opportunity for the whole family, small children up to the most seasoned adult will have little problem to easily accessible fishing.

Kodiak Island's road system offers excellent year-round fishing opportunities.

We can help you land and photograph the fish of a lifetime and make a memory for your album.

Photography

Anywhere you point your camera on Kodiak Island is a keeper for your photo album.

You'll experience first hand a variety of what the Emerald Isle has to offer. From spacious scenic views where the ocean meets the horizon to a densely covered spruce forest with gleaming rays of sunlight, we will find that special place.

Wildlife abounds in Kodiak and so do opportunities to observe puffins, eagles, salmon and the ever elusive Kodiak bear. A wide variety of ocean birds and inland song birds will keep a birder busy and a shutterbug in paradise.

Let MemoryMakers help you fill you memory card. Sessions can be arranged from an hour to several days.

Sightseeing

With so many places to explore and see on Kodiak Island it might seem overwhelming to the senses. From long mountain hikes to short gentle walks following our trail system, there is something for everyone.

You will be able to view a river full of salmon or the splendid birds eye view high atop Pillar Mountain.

Walk the trails at Fort Abercrombie State Park, a local favorite, with its historic World War II gun emplacements in and among fields of wildflowers and dense moss laden spruce trees. Also at Abercrombie is the chance to view whales, puffins and fishing vessels at sea from quality spotting scopes mounted at the park.

Call now, be it an hour or a day we will make a memory either way.
